

QUALITY ★★ ★

CS Crystal

Cable Separator

Precisely worked distributor finger for loudspeaker cables, we recommend this Oehlbach distributor finger for assembling the high-quality Crystal Star (Art. 1022) and Crystal Star (Art. 1023) products. It visually matches the product and continues the cable's quality down to the final detail. The distributor prevents the cable sheath from separating any further.

Designation	Art. No.	Unit	Colour
