# MCT80 sacd/cd transport

- Enjoy your CDs all over again with the MCT80 SACD/CD Transport.

- Designed to perfectly match our smaller sized MXA80 Integrated Audio System, MHA150 Headphone Amplifier, MB50 Streaming Audio Player and MP100 Phono Preamplifier (each sold separately) to make a comprehensive yet compact audio system.

- Proprietary MCT output connects to select McIntosh products with an MCT input to playback the high definition DSD audio found on SACDs.

- The coax and optical outputs can be used with any product that contains digital inputs including select McIntosh home theater processors, integrated amplifiers and preamplifiers.

- All common disc types can be played including SACD, CD, CD-R/RW and DVD or CD Data Discs.

- Features an improved transport with a die-cast aluminum tray in conjunction with an advanced digital servo for faster, quieter and accurate operation.

MCT80 shown with MXA80 and MB50. All units sold separately.

Enjoy Your CDs All Over Again
