

## AUDION PHONO STAGE MM

### Technical specifications

|                             |   |
|-----------------------------|---|
| Sensitivity Ref – 0dbV2.0mV | MM  |
| Distortion @ 1V             | <0.015% No Feedback                             |
| Frequency Response          | 11 – 185KHz $\pm$ 1 db RIAA                     |
| Inputs                      | 2 x 1 Phono MM                                  |
| Consumption                 | 12 Watts  |
| Size                        | 42cm deep, 23cm tall and 16cm tall - Less tubes |
| Fuses                       | Power 500mA / 240V                              |
| Phase                       | Correct   |
| Noise CCIR)                 | <80 db  |
| Signal to Noise:            | >70 db  |
| Outputs                     | 2 x 1 Main Out                                  |
| Tubes                       | 2 x 6922 or E88CC                               |
| Weight                      | 6kgs  |
| Warranty                    | 2 years - tubes 6 months                        |
